

# Ni'aulani Rain Forest Ethnobotany Crossword Puzzle

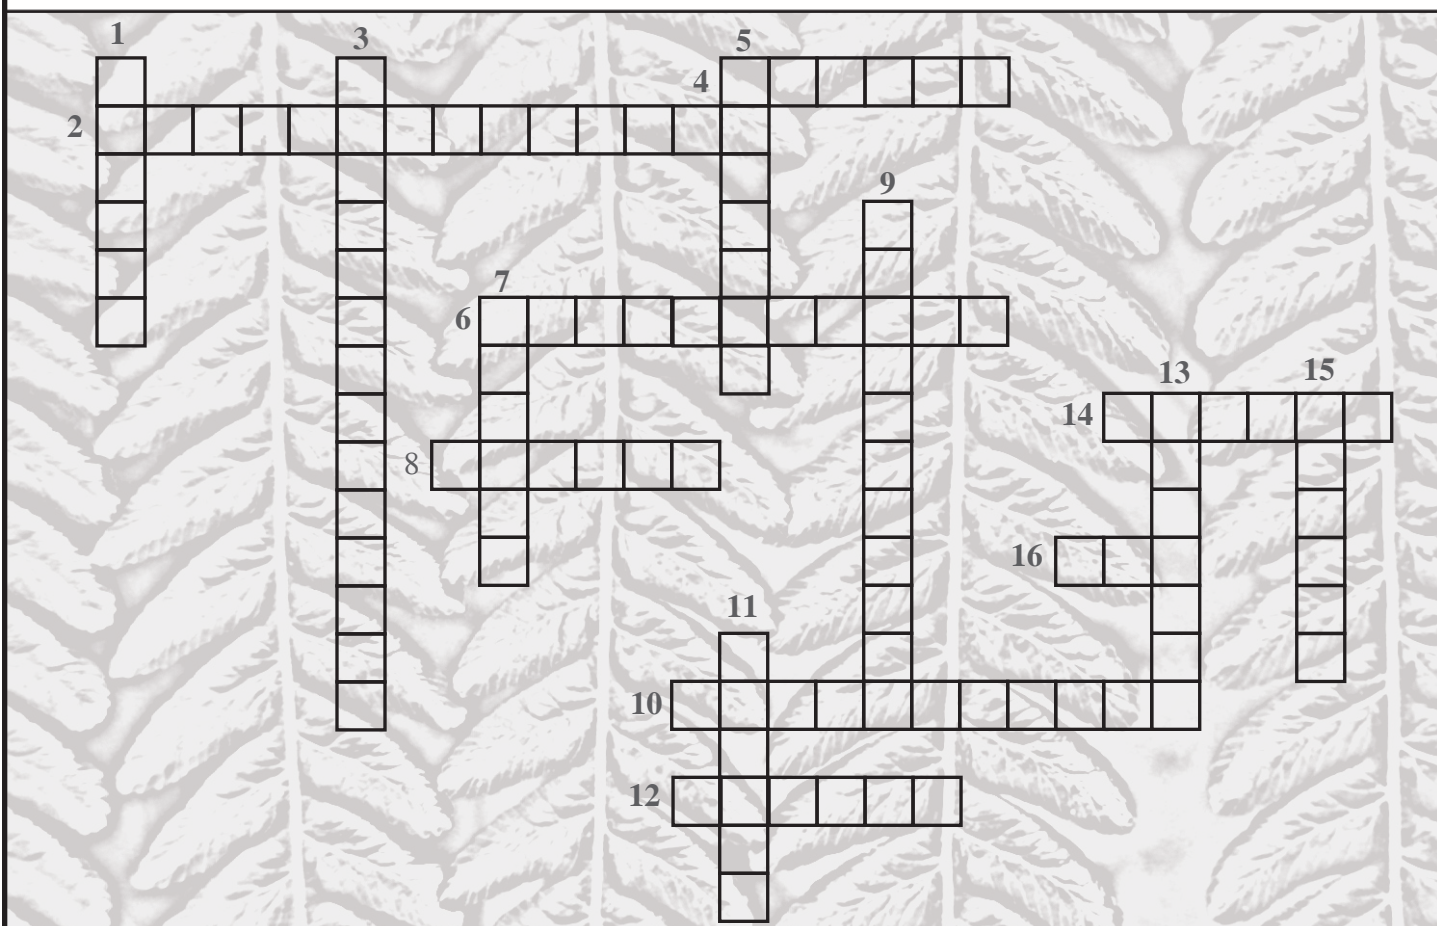

What is your name? \_\_\_\_\_

This exercise helps in the identification of the native plants within Nialani Rain Forest, as well as learning some of the traditional uses that early Hawaiians had for them.

Use the *Ni'aulani Trail Companion* booklet and the small green signs along the Nialani Nature Trail to help you complete the puzzle. Okinas (‘) are to have their own squares.

Tread lightly while in the forest, and try not to step on anything green. Our native plants are fragile!
