

Volcano Art Center's Ni'aulani Rain Forest Ethnobotanical Treasure Hunt

What is your name? _____

This is a lesson in treading lightly while you have fun! Our special forest has a lot of sensitive plants found nowhere else in the world. You becoming familiar with them helps protect them!

Use the small green signs along the Niaulani Nature Trail to help you find the plants for each use. Write all 12 of their names correctly on the lines, including okinas, and don't step on anything green!

Berries used to make medicine:

Wood used to make kapa beaters:

Wood used to start fires:

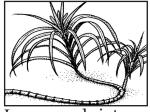

You can cook its young fiddleheads:
